Caring for Children with Medical Complexity – Case Review

Child Neurology Foundation Symposium
Child Neurology Society Annual Meeting
San Diego, CA
November 11, 2024

Case Review Exercise

- At each table, you will find a colored disc which relates to the topic for your small group discussion
- 10 minutes for small group table discussion
- 15 minutes for report out from each group

Case Review Exercise

- As an example, reflect on Cristina's journey with JuJu presented at the outset
- Highlighted areas of need
  - Lack of disease awareness/understanding (particularly rare disease) and limited access to specialists with disease knowledge
  - Care remains fragmented within coordination/communication among providers
  - Medical complexity contributes significant emotional/psychological impact with limited support networks

Case Review Exercise

- What methods/interventions did you learn of today that might have impact on this category of need?
- Do you have experience with other methods not discussed today that could be implemented for this need?
- What gaps remain to be addressed?
